

HUMC – Frequently Asked Question

What is HUMC (HumaCoin)?

HumaCoin powers Transparent Aid with Blockchain & Ai, every dollar is tracked end-to-end, partners are verified in real time, and funds move quickly to the front lines with less waste and lower fraud. Secure, compliant, and easy to follow, so you can see what your support achieves step by step.

What is the Pre-Launch?

A limited-time window where eligible participants can reserve HUMC at **\$0.02** - a **50% discount** from the usual **\$0.04** - before the public listing.

When does it start?

October 27, 2025. The announcement bar and our emails will link you to the secure pre launch page.

Who can join?

Participants who meet local eligibility rules. KYC/AML is required to participate.

What's the price and lock?

\$0.02 per HUMC during Pre Launch. Pre Launch tokens have a **12 months lock that starts after the public listing.**

How do I participate?

- Open the secure page: <https://prelaunch.humatek.io>
- Connect your wallet and submit the required details
- Fund your allocation using supported assets
- Receive on-screen confirmation and a receipt

What payment methods are accepted?

BNB on BNB Smart Chain (BEP-20). Multiple wallets are supported.

When will my tokens be allocated?

After you submit details and complete the steps, your allocation is set within 5 business days.

Before listing, you can check your reserved amount at <https://vesting.humatek.io> by entering your wallet address.

When do I actually receive/claim the tokens?

Your allocation is recorded now. **Before listing**, you can verify it at <https://vesting.humatek.io>.

After the public listing, you'll add HUMC to your wallet and follow the claim/transfer steps on our official site.

How does the 12-month lock work?

The lock starts on the public listing date. During the lock, tokens are visible but not transferable/sellable until unlock.

Where will HUMC list?

Official listing details will be posted only on <https://humatek.io> (and mirrored on our verified channels). Please ignore third-party claims.

What wallets are supported?

Any BSC-compatible wallet for example MetaMask (with BSC added), Trust Wallet, or Ledger (via BSC). We will publish the official contract address on <https://humatek.io> only.

How do I add HUMC after listing?

Open your wallet -> Add/Import Token -> paste the official contract address from humatek.io -> confirm. We'll also publish the token symbol/decimals on the same page.

How do I avoid scams?

We never DM deposit addresses. Only use links on humatek.io or the official pre-launch page. The contract address is published only on our website.

Where can I get help?

Email support@humatek.io. We can help with KYC, funding, wallets, and post-listing steps.
